DETAILED ACTION

Applicant's amendments filed June 2, 2003 have been entered.

The outstanding objections of claims 22, 23, and 26 are withdrawn in view of the amendments filed June 2, 2003.

The outstanding rejection under 35 USC 103 is withdrawn in view of the amendments filed June 2, 2003.

Please note that the amount of glycerine recited in claims 22 and 23 are sometimes 24 mg and 2.4mg. For the composition of Example 3, the specification discloses the amount of glycerine as 24 mg but in claim 23, the amount of glycerine is recited as 2.4mg. Applicant is advised to make the correction so that the claims are consistent with the specification.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-21 and 24-26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation "said pharmaceutical composition does not contain either an amino acid, citric acid or a pharmaceutically acceptable salt of citric acid" recited in claims 1 and 24 is not supported by the instant

Art Unit: 1617

specification. Examiner notes that the instant claims specifically exclude two specific agents in the herein claimed composition. Any negative limitation or exclusionary proviso must have basis in the original disclosure. If alternative elements are positively recited in the specification, they may be explicitly excluded in the claims. [emphasis added] See *In re Johnson*, 558 F.2d 1008, 1019, 194 USPQ 187, 196 (CCPA 1977). See also MPEP 2163 and 2173.05(i).
